

# WHY SHOULD YOU TRY THE GEARMASTER?

**It is the most helpful instrument for heavy vehicle driving to come along in decades.** It simply makes driving easier, safer and more comfortable. You have to drive it to believe it!

**It's an investment that pays for itself in:**

- **Fuel efficiency** – you will always know if you are in the most effective gear for your vehicle speed and, if you are not, you can see immediately which gear would be more efficient. As you accelerate or decelerate, you can see the gears approaching your “sweet spot” and you can precisely time your shift. Studies show that correctly managing your transmission can result in up to four percent improvement in fuel efficiency.
- **Less wear and tear; lower maintenance and downtime costs** – It goes without saying that if you can synchronize your engine to every shift, you can minimize wear and tear on the clutch and reduce damage to the transmission and the drive train. Compare the cost of a GearMaster to a new clutch or a transmission rebuild. Owner-operators driving with less experienced team partners are particularly enthusiastic about the GearMaster.
- **Safety** – No driver *plans* to have an accident. Yet accidents happen – especially when a driver’s attention is diverted from traffic by such things as shifting and gear recovery. Now imagine that you never had to guess what gear to select and that you always knew how to synchronize your engine to your target gear. No more guessing, hunting, grinding or bumping gears! Keep your attention on the road and shift with confidence. One avoided accident would pay for the GearMaster many times over.
- **Reduced driver turnover** – If you are a fleet and are concerned about driver turnover, providing GearMasters to selected drivers is guaranteed to improve driver confidence, satisfaction and retention. Call GearMaster for details of this guarantee.

**There is NO RISK in trying the GearMaster.** We offer a 90-day unconditional 100% satisfaction guarantee. If you don't like your GearMaster for ANY reason, simply return it to us within 90 days for an immediate and full refund of the entire purchase price including shipping and handling. *If you don't love your GearMaster, we want it back!* If you purchase your GearMaster with a credit card and wish to take advantage of this refund offer, you can, depending on your billing cycle, schedule the return so that your refund check arrives before your credit card bill is due. This means no cash outlay for you.

**Rental, Lease and Financing options are available**, making the GearMaster even more affordable. With a low, \$200.00 down payment, you could be enjoying the benefits of the GearMaster for less than a dollar a day – about the price of a candy bar or a cup of coffee.

**Earn your investment back!** – Your purchase registers you as a GearMaster user. With our user referral program, for every new customer you refer to us who buys a GearMaster, we send you a check for \$100.00. If you don't like your GearMaster, tell us and we'll refund your money. If you do like it, tell others and earn back even more than your investment!
